I am a UI/UX designer with over 2.8 years of experience creating intuitive, user-centered designs. My expertise in user interfaces, graphic design, and front-end development allows me to craft cohesive digital experiences. Driven by curiosity and a passion for detail, I balance creativity with precision to deliver innovative and functional solutions that meet the highest design standards.

Work Experience

UI/UX Designer - L3, Khushi Baby (NGO)

January 2023 - Present

- Led the redesign of the ASHA & ANM Mobile App, focusing on RMNCH+A, TB screening, and MCHN session approvals, which improved user engagement and onboarding efficiency.
- Directed the UI/UX strategy for the ABDM-ABHA platform, ensuring alignment with certification standards.
- Spearheaded the end-to-end design of the GoK App, comprising over 100 screens for OPD, patient registration, and inventory management, optimizing user experience and navigation.
- Conducted UX research and developed interactive prototypes, collaborating with development teams for seamless implementation.

Associate UI/UX Designer, Permute Solutions Pvt. Ltd.

March 2022 - December 2022

- Established and maintained a design component library for Anarock's digital platforms and TARP Agile Platform, improving brand consistency and operational efficiency.
- Translated complex workflows into intuitive user flows, enhancing communication between design, development, and product teams.
- Facilitated smooth design-to-development handoffs, ensuring designs were accurately implemented.
- Designed branding materials and visually appealing social media posts to strengthen the brand's online presence.

UI/UX Design Intern, Reddway.In

May 2021 - July 2021

- Developed email templates for promotional, confirmation, and alert purposes, ensuring brand consistency across communications.
- Designed the UI/UX for the order fulfillment process, optimizing usability for the user experience.
- Created intuitive user interfaces for the Seller Dashboard, providing effective tools for account and product management.
